

SERVICE PROPOSAL · AI & ROBOTICS SERVICES + HUMAN-IN-THE-LOOP

Your AI and robots ship when humans review beside them — we are those humans.

A 4-stage journey from a 30-min scoping call to a production human-review pod across 10 AI & robotics categories — HITL, software rescue (LLMs + ROS / Isaac), LiDAR + sensor-fusion data, RAG curation, agent QA, compliance and more — delivered by our 12-year-old India hub with 300+ trained professionals and HIPAA-ready staff.

WHERE YOU ARE TODAY

The four pains we keep hearing — and solving

× Your LLM hallucinates in front of customers

Drafts go out wrong, refunds pile up, support tickets bloom — and you're losing trust that costs more than the AI saves.

× Vibe-coded MVP or ROS robot breaks in prod

Lovable, Cursor, Bolt, Claude Code, ROS / Isaac / MoveIt shipped fast — now production crashes and your engineers can't reproduce or fix.

× Training-data bottleneck stalls models

Whether it's LLM labels or LiDAR + sensor-fusion frames, accuracy plateaus because data is slow, expensive, or low-IRA.

× No owner for HIPAA, GDPR, robot-safety audits

Healthcare AI, EU launches, ISO 13482 robot reviews keep asking "who reviewed this?" — and your team has no audit trail.

YOUR JOURNEY WITH AB7

Four stages. One accountable partner. Measurable outcomes at every step.

STAGE 01 Discover

A 60-min call with your IT, ops & compliance leads. We map processes, KPIs and risks together.

DAY 0-7 · FREE

STAGE 02 Design

You receive a Statement of Work with scope, KPI tree, accuracy SLAs, pricing and a 30-day rollback clause.

DAY 7-14

STAGE 03 Deliver

Your trained team activates, SOPs are published, tools integrate with your stack and a controlled pilot runs.

DAY 14-28

STAGE 04 Grow

Steady-state delivery, weekly QA scorecards and a Monthly Business Review with your director.

DAY 30 → ONGOING

WHAT YOU'LL SEE IN 90 DAYS

WHY AB7

What you actually get when you sign with us

ONE ACCOUNTABLE DIRECTOR

Not a 1-800 number. A named director owns your KPIs, your QA scorecard and your renewal — every Monday call, every QBR.

AUDIT TRAIL BY DEFAULT

Every action logged, every decision traceable. SOC 2 / ISO 27001 / HIPAA / GDPR / DPDP / PCI-DSS aligned from day one.

DUAL-REGION DELIVERY

India delivery hub + Marlton NJ for client-facing operations. 24x7 coverage, single SLA, no hand-offs at 6pm.

FREE REPLACEMENT GUARANTEE

If a placement doesn't fit your team — for any reason — we replace at zero cost. Your hire risk is on us, not you.

PICK THE CONTRACT SHAPE

Engagement models — match your demand pattern, not ours

FTE

Dedicated team

Best for ongoing operations: claims, support, AP. Predictable monthly cost.

PER-TXN

Per-Transaction

Best for variable load: document processing, data labelling. Pay only for completed units.

PROJECT

Defined scope

Best for one-offs: data migrations, RCM clean-up, research. Fixed price + timeline.

HYBRID

Mixed model

Best for seasonal: insurance, e-commerce. FTE base + per-txn surge under one contract.

Let's start with a 30-minute discovery call.

Tell us where you are — overload, vendor fatigue, surge season ahead, or just need to model the savings. We'll come back inside 24 hours with a fit assessment, three ways to engage, and a draft SOW for your review.
